

WORK OF CONGRESS IS ALL LAID OUT

LEGISLATIVE PROGRAM FOR THE WEEK.

Time Will Be Devoted to a General Clearing Up of Business Preparatory to Adjournment—Appropriation Bills Well Under Way—Other Capital City News.

Washington, May 25.—The outlook as to the line of proceeding in the senate during the present week is not very clear. It is the general understanding that the debate on Senator Butler's bond resolution will continue, but if it holds the floor beyond today there will be an effort to displace it with the general deficiency appropriation bills. This is the only one of the appropriation bills which has not received the attention of the senate, and, as it has now been reported, the members of the appropriations committee are now really anxious to take it up at the earliest practicable date.

On the other hand, Senator Butler, who has charge of the bond bill, feels that if a vote is not had on his bill before the appropriation bill is passed, it may be impossible to hold a quorum. He thinks it will be possible to conclude the debate upon the bond bill today, or, at the latest, Tuesday. Senators Dubois and Pritchard have stated that they would ask to be heard on the bond bill before a vote is taken, and it is probable also that Senator Allison may submit some remarks upon it.

The opponents of the bond bill will try to prevent a vote being reached at all, and some of them will obstruct its progress to the fullest extent possible with appropriation bills, and by other legitimate means at their command. Of the fifteen general appropriation bills, only six have become laws, leaving nine still to be sent to the president, and none of these, except the legislative and the rivers and harbors bills, is entirely out of conference. There will, therefore, be numerous conference reports to be presented, and as these are always privileged matters they can be used to displace the bond bill. Ordinarily the deficiency bill would not occasion prolonged debate, but it may be used to prevent the consideration of others.

The "filled" cheese bill is also to be debated, as opportunity offers. Senator Lodge counts upon time to consider the immigration bill. Senator Mitchell of Oregon hopes also to put up his resolution providing for the election of United States senators by direct vote of the people, as does Senator Hill the bill defining contempt of court.

The talk is general that the date of final adjournment will depend almost entirely upon the length of time the president may hold the rivers and harbors bill. Without having any direct authority for the proposition, the senators generally expect a veto of that measure, and count upon having to remain long enough to attempt to pass it despite the executive disapproval. Senator Allison has expressed the opinion that in case of early action by the president, whether favorably or adversely, the senate would be prepared to adjourn by the first of next week. In that event everything would be brushed aside this week for the appropriation bills.

The house is rapidly clearing the decks for final adjournment. Conference reports are likely to consume a large portion of the time of the house this week, as they did last. The Phillips labor commission bill and the Erdman arbitration bill, which were crowded out by conference reports last week, will be brought up this week if time permits. The bill to repeal the free-alcohol clause of the present tariff in the shape of the compromise proposition agreed on by the friends and foes of the measure, will, however, be allowed the right of way before these two bills. There are also six election cases on the calendar. The Murray vs. Elliott case from South Carolina and the Mitchell vs. Walsh case from New York, in both of which the majority reports favor the republican contestants, are the most urgent of these, and it is the intention of the leaders to dispose of them at this session.

To Fight the Liquor Evil.

Galesburg, Ill., May 25.—The twenty-fifth annual convention of the Roman Catholic Total Abstinence union of Illinois was held here Sunday. There were thirty-one societies represented. In all 2,900 outsiders were here. The convention was called to order at 2 o'clock by President James L. Slattery. The report of the financial secretary, John C. McAuliffe of Chicago, showed an increase of ten new societies and 652 members during the last year, making a total of 2,213 members. The union now numbers forty societies, divided as follows: Eight women's, eight cadets', twenty-two men's, one mixed and one girls'. The resolutions contained the usual strictures against intemperance. The attitude of Miss Frances Willard toward the Roman Catholic temperance societies was indorsed. The hearty co-operation of the Roman Catholic clergy was requested.

Accused of a Triple Murder.

Mansfield, Mo., May 25.—Prosecuting Attorney E. H. Farnsworth of Douglas county Sunday arrested Edward Perry, the supposed murderer of the three members of the Sawyer family at his aunt's house sixteen miles southeast of here. Excitement was so high, that

through tears of a lynching. Sheriff Goff left for West Plains with the prisoner, where he will be more secure from mob violence. A message from the sheriff of Greene county says that the missing team, wagon and harness have been found, and that it was Perry who sold them. The bloody clothes were found in the trunk in the wagon, together with a saw and hatchet.

GASOLINE TANK EXPLODES.

Four Killed and Two Badly Injured at Chicago.

Chicago, Ill., May 25.—By the explosion of a gasoline stove in a little frame house in the rear of No. 148 Townsend street early Sunday morning a family of six persons was almost wiped out of existence. Four are dead and a fifth is so badly burned that death is almost certain. The names of the dead are: OTTO MALM, 32 years old. SIMA MALM, 8 years old. HILMA MALM, 6 years old. OTTO MALM, JR., 3 years old. The injured are: Mrs. Ella Malm, 33 years old, burned about the hands, arms and face. Will recover. Ellen Malm, 8 years old, severely burned about the head and body. Will probably die. Mrs. Malm, the wife and mother, had arisen to prepare breakfast, and her husband and children were still in bed and asleep. She lighted a gasoline stove, when the tank, or reservoir which holds the supply of oil, exploded, throwing the burning fluid about the little tenement. Before the sleeping members of the family could be taken out or even warned, they were shut in by flames and burned almost to a crisp.

PLEADS FOR PEACE.

Moderator Withrow's Sermon at Saratoga Causes Comment.

Saratoga, N. Y., May 25.—Moderator Withrow, newly elected to office in the Presbyterian general assembly, said Sunday, in the course of his discourse, he was pleading for moderation and conciliation. His subject was: "Loving Deeds, Rather than Violent, Reveal Christ." Theological contests never have been a source of benefit, he declared, though possibly good may have been brought out of ecclesiastical duels. He expressed entire dissent from the principles of those who declare: "We will cleanse the church, even if we split it apart in doing so." Christianity does not receive the confidence of the world while it uses the ax. Fighting churches are a laughing stock. Conciliation and mutual consideration are indispensable to the healthy growth and progress comes with peace. The moderator's sermon has been the subject of general conversation ever since it was delivered, the liberal and the moderate classes applauding its spirit.

Alaskan Miners in Hard Luck.

Victoria, B. C., May 25.—Capt. Meyer of the steamer Danube, which has just returned from a trip to Sitka, reports that suffering exists among miners, prospectors and others at Cook's inlet. The steamer Bertha had just arrived at Sitka from the inlet, bringing down many who had gone there with the idea of making their fortunes. They could stand it no longer. The weather has been bitterly cold and there is not sufficient accommodation for the men. However, many are holding out and, despite bad reports, others are going in. On her return trip the Bertha took up 150 men who are going better provided than their predecessors. Those who came down on the Bertha say there is a lot of suffering ahead for those at the inlet.

Union Services by Baptists.

New York, May 25.—The three great divisions of the Baptists united in their work Sunday at Asbury Park. Services were held under the auspices of various societies throughout the day, those in the morning being held by the Publication society, in the afternoon by the Missionary union, and in the evening by the Home Missionary society. Today the sixty-fourth anniversary of the American Baptist Home Missionary society begins. The Baptist Educational society also will meet.

Reformed Presbyterians.

Cincinnati, O., May 25.—The synod of the Reformed Presbyterian church of the United States will meet here May 27 at the Clinton Street church. The session will probably last a week. About 200 delegates from all parts of the country are expected. Rev. J. M. White of Denver is moderator. This year the honor will probably fall on Rev. J. C. Smith, pastor of the Clinton Street church. After the synod adjourns a delegation will leave for Scotland to attend a church celebration about the middle of June.

Big Elevator in Portland.

Portland, Me., May 25.—Portland people have subscribed \$175,000 in cash toward building a grain elevator of 1,000,000 bushels capacity for the Grand Trunk railroad. The Grand Trunk will furnish \$75,000 more, thus guaranteeing a regular line of European steamers for Portland.

Big Glass Works Blown Up.

Hartford City, Ind., May 25.—A natural gas explosion in one of the blowing-rooms of the Hartford City Window-Glass company, Sunday afternoon, destroyed the tank, and burned William Sutton and John Worthen so that they may die. It was only a week to the shut down, and 600 men are prematurely thrown out of work. Loss, \$8,000.

MINISTER CHARGED WITH TWO MURDERS

SAY PEOPLE WERE SLAIN IN A CHURCH.

Two Unfortunate Girls Probably Chloroformed and Then Cremated—Misses Clawson and Samuelson the Victims Murderer Not Yet Arrested—A Sensation at Salt Lake City.

Salt Lake, Utah, May 25.—Additional evidences of foul murder have been discovered in the basement of the Scandinavian Methodist church. It seems almost certain that Miss Clawson and Anna Samuelson were done to death and their mutilated bodies thrust into the furnace of the church and cremated in order to destroy all evidences of the crime.

Evidences tending to connect the pastor, Rev. Francis Hermann, with the supposed crime were also found. Articles belonging to Miss Samuelson were found in Hermann's trunk in his apartments. These articles were positively identified by the girl's aunt.

The investigation proceeded, and in the basement of the edifice were evidences of the crime. Alongside the furnace stood a barrel and when subjected to an examination, human blood was found upon it. There were several old copies of the Salt Lake Herald, one containing the ghastly story of Theide, a wife murderer, besmeared with blood. The lower door of the furnace had a streak of red across the front, which has been pronounced human blood.

It is believed that the murderer used the barrel as a block for his butchery. The door of the furnace is not very large—10x6 inches—and would not admit a whole human body. The murderer used the knives and razors found under the grates, and after doing his work threw them into the fire to be consumed with the body of the victim.

The theory of the police is that Miss Clawson was chloroformed in the pastor's study on the Sunday night of her disappearance and cremated in the furnace on the following day. It was the discovery of some clothes in one of the pastor's trunks that caused him to be connected with the disappearance of another woman. It seems that Hermann was quite popular among the members of his flock belonging to the gentler sex.

Among his admirers was Annie Samuelson, a beautiful girl, aged 22 years. After the disappearance of Miss Clawson, it appears, according to the members of his church, that Annie became his favorite. They grew intimate, but as both told their friends they were soon to be married it created no great amount of gossip. Miss Samuelson has an aunt living in this city. She was seen and reluctantly replied to some question surrounding the history and sudden disappearance of her niece, "Annie was 22 years old," said Miss Larsen. "She came from Sweden about two years ago."

When the Samuelson girl left here or disappeared in January last it was given out on her own statement that she intended to visit her friend, Fritz Hildebrand, in the employ of the Pullman Car company at Chicago. It is said a letter has been received in this city from Hildebrand saying the girl cannot be found in Chicago. The police have found books, apparel and other things in the pastor's room in the church which have been identified as belonging to the missing girls. The last that has been heard from Hermann was a letter mailed at Kansas City May 11, in which he said he was on his way to Decorah, Iowa. Dispatches from Decorah, Iowa; Crookston, Minn., and Kansas City, Mo., say not trace of Hermann can be found. It is known here that he had church subscriptions made in Minneapolis which he was to collect personally. The police department is making every effort to locate the missing pastor.

Will Disregard Instructions.

Klamath Falls, Ore., May 25.—While the democrats of Oregon have declared for free silver and will send a solid delegation to the Chicago convention to work for a 16-to-1 plank in the platform, the republican delegates elected to the St. Louis convention are unanimous in favor of a "sound-money" platform. Charles S. Moore, an influential member of the delegation, said last night: "The Oregon republican delegates will vote for McKinley to the last, and I believe he will and ought to be the people's choice. The delegation to a man is for 'sound money'—gold standard if you please—and emphatically opposed to the free coinage of silver at 16 to 1, and so far as our influence goes it will be to have the St. Louis platform so declare."

Tobacco Exportation from Cuba.

Madrid, May 25.—Senor Canovas del Castillo, the premier, declares that he will only sanction the export orders of tobacco from Cuba which were given prior to Captain General Weyler's decree prohibiting the export of tobacco. This is presumably in reply to the representations made by the United States government to Spain with regard to the prohibition of the export of tobacco from Cuba.

Buffalo, May 25.—The body of Contractor William B. Straub was recovered from the ruins of the Brown building yesterday. The body taken from the debris late Thursday night has been identified as that of a Polish laborer employed by Straub.

COLD WATER PARTY SPLITS ON SILVER

PROHIBITIONISTS NOT ALL OF ONE MIND.

The Relative Importance of Side Issues Likely to Disturb the Harmony of the Convention Wednesday—Prominent Leaders Disagree on the Sixteen-to-One Proposition.

Pittsburg, Pa., May 25.—The delegates to the prohibition national convention began to arrive shortly after midnight last night. Governor John P. St. John, of Kansas, and Samuel Dickey, mayor of Albion, Mich., and national chairman for the past eight years, are already on the ground. The number of delegates to the convention will be 1,160. Not all the states will be fully represented. The delegates from the south and west will have some gaps.

The first question to be settled is whether the delegates from states not fully represented will be allowed to vote the entire strength of their sections. Mr. Dickey believes that only the delegates present should be counted, and if some of the states are shy, they will lose to that extent. To this view there will be a strong opposition. A very hot time is expected in the convention. Governor St. John admits that the debates are likely to be acrimonious, while others interested in the convention believe that a strong body of police will be found necessary to prevent personal conflicts. There will be two factions in the convention—the narrow-gauge, or single-idea, people, led by Chairman Dickey; and the broad-gauge, under the leadership of St. John. The Kansan believes in the policy of all things unto all men in the glory of the prohibition party. He is an ardent advocate of free silver and free trade, and populist ideas. Neither St. John nor Dickey attempts to conceal the fact that he expects trouble in the convention. Dickey is an advocate of the gold standard. He thinks that four years hence the silver question will be settled forever, and it will be in oblivion as an issue with the old greenback and other flat money ideas. He therefore says that as the members of his party cannot agree on the money question and kindred problems, the wise course is to stick to the one issue of prohibition, on which they all agree. Dickey is a firm believer in woman suffrage. He argues that the time is not far hence when the women will vote but wants this issue, with all others, subordinated to the single idea for which the party was organized.

POLITICS IN INDIANA.

Democrats to Hold a Big Mass Meeting Thursday.

Indianapolis, Ind., May 25.—The action of the gold democrats of this city in starting a movement to counteract the strides of the free silver sentiment throughout the state has called for a number of protests from the advocates of free silver, Chairman Holt and others who attended Saturday night's meeting being visited by leaders of the other side and receiving telegrams urging that the call for the mass meeting on Thursday be withdrawn.

Democrats who are in sympathy with silver say the party can secure the solid support of the populists if free silver is indorsed at the state convention, and that many republicans who do not indorse "sound money" will also support the democratic ticket. The men, however, are determined to persevere and if possible prevent the party from indorsing free silver. The meeting next Thursday promises to be attended by democrats of prominence from all parts of the state.

NINE PERSONS KILLED IN IOWA.

Palarie Said to Have Been Devastated by a Cyclone.

Kansas City, Mo., May 25.—3:30 a. m.—The Times has received word through the local telegraph office of the Maple Leaf road that a cyclone struck Palarie, Iowa, fifteen miles north of Des Moines, Sunday night, killing nine people and injuring a number of others. Further particulars are unobtainable at present.

Calls for Impeachment.

Washington, May 25.—Representative Howard (pop., Ala.) introduced a resolution in the house Saturday for the impeachment of President Cleveland, the grounds alleged by the resolution being illegal sale of bonds, illegal use of the proceeds of the bond sales, corruption in policies and refusal to enforce the anti-trust law.

Mr. Howard was suddenly taken off the floor by Mr. Dingley, the floor leader of the majority, who raised the question of consideration against the resolution. The question was promptly put by the speaker and by a practically unanimous vote the house declined to give Mr. Howard a hearing.

Blancher Went to Los Angeles.

San Francisco, May 25.—It is now known that J. E. Blancher, the ex-Hungarian officer, who is suspected of the murder of Mrs. Langfeldt, went to Los Angeles. The Pullman and dining-car conductors of the train which left here for Los Angeles Saturday night say Blancher was a passenger on their train. They have positively identified photographs of him.

BASEBALL REPORT.

Standing of the Clubs Composing the Three Principal Leagues.

The coming week's games in the National league will bring changes, but Chicago should return with an even break at the worst. Chicago yesterday pulled up in the race and is within a jump of still more eminent positions. Tuesday's openings will give the tenor of the championship. Standing of the clubs

WORK OF METHODISTS.

Lay Representation to Be Decided Within a Few Days.

Cleveland, O., May 25.—The Methodist general conference will adjourn sine die at 1 o'clock Thursday afternoon. During the four working days of this week afternoon and evening sessions may be held. Besides the consecration of Bishops-Elect McCabe and Cranston and the new bishop of Africa, the conference will hear reports of standing committees. The question of lay representation is one of these. There seems but little doubt that the laymen have enough friends in the conference to pass by a majority vote an amendment to send to the annual conferences for their approval providing for equal representation in the general conference. This will take four years, and next time a two-thirds vote of the general conference will be necessary to confirm it, providing it passes the annual conferences. There will also be a report for lay representation in minority numbers in annual conferences, but this may not be adopted.

Kansas Populists for Fusion.

Topeka, Kan., May 25.—The sentiment for a combination on a national ticket between the democrats and populists is fast taking shape among the leaders of the latter party in Kansas. If the free coinage men win in Chicago and nominate a western man satisfactory to the populists, it is certain that many of the Kansas delegates to the populist convention at St. Louis will favor his indorsement by that party. Messrs. Bland, Morrison and Boies are all regarded with favor by the Kansas populists.

Mr. Platt Makes a Statement.

New York, May 25.—Ex-Senator Platt gave out a statement last night in part as follows:

"The business men of the country may confidently rely upon it that their views will be expressed at St. Louis, both as to the maintenance of the gold standard and as to the nomination of a candidate who appropriately stands on a gold platform. New York will present such a candidate and the vote of this state will be cast almost unanimously."

Currency Fight in Ohio.

Columbus, Ohio, May 25.—Four congressional districts in this state—have now selected their delegates to the national democratic convention. Hardin and Logan counties selected three silver delegations to the state convention Saturday. It is quite certain now that the state convention will adopt a free silver resolution. It is believed Senator Brice has given up the fight against it.

THE NATION MOURNS FOR GEN. FAIRCHILD

FUNERAL WILL BE HELD TOMORROW AFTERNOON.

Private Service Will Be Held at the House, Followed By The Public Exercises in the Capitol Park—Short Sketch of His Useful Life.

Madison, Wis., May 25.—Gen. Lucius Fairchild died Saturday evening at 6:50 o'clock. Gen. Fairchild has been in failing health for a year, and some months ago suffered an attack of the grip, after which he grew steadily weaker. He was born Dec. 27, 1831, in what is now Kent, Portage county, O. He went to the war soon after the firing upon Fort Sumter, and came home a brigadier-general, losing an arm in the service.

Gen. Fairchild was elected secretary of state of Wisconsin soon after his return from the war and in 1865 was made governor. He was re-elected in 1867 and 1869 and in 1872 was appointed consul at Liverpool. In 1878 he left Liverpool and was promoted to the position of consul-general at Paris. Later he served as minister to Spain. He returned to Madison in 1882 and in 1886 was elected department commander of the Wisconsin Grand Army of the Republic and the next year was made commander-in-chief of that body. He was married in 1864 and leaves three daughters.

The funeral will occur Tuesday afternoon and there will be a private service at the house first, at 2 o'clock, at which the attendance will consist of the family and near friends of Gen. Fairchild. Here the Episcopal burial service will be read by the Rev. Fayette Durlin of the Episcopal church of Madison, of which Gen. Fairchild has been a member for many years. From the house the body will be escorted to the capitol yard by a procession.

In the capitol yard the body will lie in state on the raised platform, near the east wing of the capitol, while short addresses are made. Only one speaker, the Rev. Joseph Sanderson of Augusta, Ill., the national chaplain of the Loyal legion, has yet been chosen.

Anxious About the Iowa Law.

Des Moines, Iowa, May 25.—Iowa building and loan associations are trying to find out what will be expected of them under the new law requiring them to conform to certain fixed standards, make reports to the auditor of state, and submit to examination. The law is a pretty strong one, and it will require every association organized in the state to change its plan of business. Nearly all will have to re-incorporate, and there is scarcely one but has some objectionable or weak feature that will be weeded out. The law goes into effect July 4, and the associations have sixty days after that to comply with it. Foreign associations will have to put up \$100,000 in securities with the auditor of state to protect the Iowa stockholders before they will be allowed to do business in Iowa. No association will be allowed to do a banking business, or to receive deposits and pay interest thereon.

Street Car Accident at Denver.

Denver, Colo., May 25.—A car on the Agate avenue line of the tramway company got out of the control of the motorman near midnight last night, jumped the track at a curve when going down hill at high speed, and turned over. The most seriously injured are: Mrs. Sarah Hanson, aged 48, internal injuries, bruised and cut; may die. Mrs. Jessie Connett, aged 25, concussion of the brain; probably internal injuries. Mrs. Albert Zimmerman, aged 36, scalp wound and cut over forehead. Twelve persons in all received injuries. There were seventy-four passengers on the car.

Death of Booth's Captor.

Lansing, Mich., May 25.—Lansing lost a distinguished citizen Sunday by the death of Lieutenant Luther B. Baker, the capturer of President Lincoln's assassin. He was on the staff of General L. C. Baker, chief of the federal secret-service bureau, and was detailed to take charge of the party which pursued John Wilkes Booth. He demanded Booth's surrender previous to the firing of the barn, and he stayed with the assassin after Corbett's fatal shot until death ensued. He was General Baker's only assistant in the final disposition of Booth's body.

Li Will Visit America.

Moscow, May 25.—Li Hung Chang, the special envoy of the emperor of China to the coronation of the czar, has submitted to an interview on the subject of his mission in Russia and in other western countries which he will visit when he leaves Russia. He said that he intended to go to America after visiting France and England. The sole mission entrusted to him, he continued, apart from the coronation, was to study the European and American systems of government with a view of introducing foreign customs into China.

Debs Will Not Run for President.

Birmingham, Ala., May 25.—Eugene V. Debs, president of the American Railway union, said last night: "I will state for the public print that I will not serve in a public office."

A MEMORIAL SERVICE FOR THE VETERANS

BIG AUDIENCE AT THE COURT STREET CHURCH.

Rev. Dr. Halsey Speaks Feelingly to His Former Comrades Last Evening—Church Appropriately Decorated and the State School Quartette Sang—Other Services.

Janesville veterans, and their allies of the Woman's Relief Corps, attended Memorial service at the Court Street M. E. church last evening. The sanctuary was filled, and the decorations were appropriate and handsome. The male quartette from the State School for the Blind was present, and rendered the vocal music. The service was entertaining, patriotic, and interesting and the pastor's remarks were listened to with rapt attention.

Rev. Dr. Halsey said, in part: What mean ye by this service? The answer is not difficult. Such a service is a tribute of respect to the memory of departed heroes. So far as they are concerned, the honor though merited comes too late. Thus it has ever been in the history of the world. Men who possess courage to live for high aims and noble purposes must die before their work is appreciated. Curses for the living and praises for the dead. The world is not overstocked with the spirit of fairness. Favoritism cuts a larger figure than merit. Prejudice blinds the eyes and men walk in darkness.

Entitled to Honor. Our fallen comrades are entitled to honor because of the many traits of character they possessed and illustrated when duty called them to defend the nation against her foes. The exceptions are rare. Here and there one deserted his post of duty and turned traitor to his country, but the rank and file were true as steel. Our soldiers were not cowards. Braver hearts never beat in tabernacles of flesh. They endured privations and hardships without a murmur and faced death without flinching. They were good as well as brave-hearted. Those who fell on the battle field were as good as those who remained at home, as good as those who survived the horrors of civil war.

Died For Principle. Our comrades sacrificed their lives for great principles. In the estimation of intelligent people it does make a difference for what one dies. The issue briefly stated was whether this nation should preserve its unity or be divided into factions and the factions ruled by autocrats of power. The question was settled on the field of battle. The verdict of the people was written in blood.

Memorial services are helpful to those who escaped hissing bullets, screaming shells and the malaria of the swamps. For citizens to unite with us in observing this custom, smooths the rough places in the path of life and lets us down gently toward old age. It is helpful because it is a public recognition of the obligation the people are under to preserve and hand down to others the best form of government known to man. I do not claim it is best for Africa where men and women run wild, or for China where superstition reigns, but best for us, and it is our duty to perpetuate it.

Not Room for Two Flags. Memorial services inspire and develop the spirit of patriotism. This is necessary for various reasons. As a rule in the time of peace people devote themselves to individual interests and love of country wanes. Then our population is mixed. We are made up of all classes and conditions. The typical Yankee has disappeared. In the centers of civilization every nation is represented. The problem is how to bring this mixed multitude together in such a way that in all matters of public interest our hearts shall beat as the heart of one man. This is not simply a desirable condition, but an indispensable condition. Every man living on soil redeemed by the blood of our ancestors, redeemed again by the blood of our comrades, ought to say: "This is my country, her peace and prosperity, is my peace and prosperity. There is not room enough on our broad acres for two flags."

At the PRESBYTERIAN CHURCH. Rev. E. H. Pence, Speaks of the Centenary Faith and Holy Ghost's Power. Rev. E. H. Pence, of the Presbyterian church, had for his morning text, Luke 7:33: "And when Jesus heard these things, he marvelled at him, and turned him about and said unto the people that followed him, I say unto you, I have not found so great faith, no, not in Israel." In reading this chapter many think that the climax of this account is reached when the ser-

vant of this century is cured of his illness. But a thoughtful person, who looks deeper than the surface, will find the practical lesson and the example in the conduct of the century. If such a man as the century could do something to cause Christ to marvel, there is no reason why we cannot. The kindness of the century to his servant, is the key to his character. To be kind is to do right; to do right is to do good, and goodness is an attribute of God. The benevolence of the century in building a synagogue for the Jews is an expression of faith in power of God. He also loved the Jews, and love expresses faith. He was sensitive to his own imperfections, which is a sign of Christ in the heart.

This century by his willingness to sacrifice his popularity with the Romans, and to give up his time for the good of his servant, teaches a lesson. To save a sinner is entirely beyond human power. We have faith in our physicians to save our bodies from disease; we need faith in Christ to save our spiritual persons from everlasting death.

The Evening Service. The topic for the evening was "The Power of the Holy Ghost," the text, Acts 1:8.

"But ye shall receive power; after that the Holy Ghost is come upon you." The power of God naturally elicits interest, as we are attracted by any display of wonderful strength. God is irresistible. When he created the heavenly bodies he planned to control them by the law of gravitation. When he created the lower animals they were to be controlled by their instinct.

When man is to carry out His plans God can control them by His Holy Ghost, which will give power to understand truth, ability to obey God's truth, and power to teach it by witnessing for it.

God's power or Holy Ghost, must get hold of the will of man, in order that God's work can be carried on. As the will is allowed to be in God's power, we give God a leverage to raise us to heaven. Compare Peter denying Christ with Peter preaching Christ after the descent of the Holy Ghost, and God's power can, in a measure, be realized. God exercises power in our physical life and we cannot help it; therefore let the Holy Ghost enter the soul that our whole personality may be controlled by God.

HOW TO LOVE YOUR NEIGHBORS

Rev. V. E. Southworth Gives His Congregation His Ideas on the Subject

In dealing with the subject "Loving your neighbor as yourself," Rev. V. E. Southworth of All Souls, said: "If I were asked to give a sure recipe for 'loving one's neighbors as you love yourself,' I should formulate it in this way: 'Learn not to see and hear a great many things that you can't help seeing and hearing.'"

"No matter if your neighbor lives only a few yards away or upstairs or just next door—school yourself to be sublimely unconscious of what is happening under your very nose. In the plainest kind of plain words, learn to mind your own business. I honestly think in most cases that this is the kindest kind of kindness and the loveliest sort of love—just to attend strictly to one's own affairs and leave your neighbor to do the same."

"The act of being truly neighborly consists quite as much in knowing when not to do and say, as when to do and say."

"Another rule which will help to keep us patient and kind to those around us is the old maxim, 'Put yourself in his place.' There are always 'allowances' to be made, and if we stop to weigh and consider all extenuating and mitigating circumstances, the people whom we find it hard to like will not upset us so completely."

How to Deal With Neighbors.

"There are only two ways to deal with one's neighbors; we can make the best of them or we can make the worst of them. Make the worst of the best of them; and they will become utterly unendurable; make the best of the worst of them, and they are well-nigh angelic."

"The true spirit in which to live is the magnanimous, generous, high-minded spirit. It never pays to be ungenerous in our estimates of one another's character and worth. But as a rule, I believe, we more often underestimate each other than otherwise. People are usually worth a great deal more than we give them credit for. We do not see deep enough into one another's lives. We see not the heroism the self denial, the high anticipations, and true endeavors which are slowly working their way to the surface."

"Immanuel Kant declared that man cannot think highly enough of man."

"I hold it is true. Human nature is the rough unmixed gold hidden in the crevices and fissures of the mountain side, mixed with clay and begrimed with mud. It needs 'digging' for. It needs smelting and washing and minting or else we'll never know how choice it is or how great its purchasing power on the market of this spiritual universe. Every one is a guilty of discounting too much the value of our neighbors. They are worth more than we think. The moment has not yet arrived for them to manifest the unimagined capabilities which lie beneath what seems to us a hopeless exterior."

Give Him The Benefits of Doubt. "A really practical way of loving your neighbors is to give him the benefit of every doubt. Do not be too fast to believe the worst about him. Believe the best even when it draws somewhat heavily on your imagination. Better a thousand times be extravagant in your praise of him, than

A RECORD IS MADE BY HENRY KLEIN

THE CITY ELECTRICIAN COVERED 107 MILES.

He Rode to Watertown and Back, But Dr. Joe Whiting Who Was With Him Was Forced to Take a Walk—Other Gossip For The Wheelmen.

When City Electrician Henry Klein dismounted from his yellow wheel in front of the West side fire station at 8:30 o'clock last night, he modestly informed the members of the Fire Department Cycling club, that he had covered 107 miles. Mr. Klein, and Dr. Joe Whiting left at 1 o'clock a. m. for Watertown, calculating to make a century run. They reached that city in good time, but on the return trip and when a mile from Milton Junction, Dr. Whiting's "wind" gave out and being unable to remedy the difficulty he was forced to walk to that village, and take the train for home. Klein finished the trip on his wheel. In Klein, Orion Sutherland and Glen DeLong, the Arrow Cycling club probably has the three best long distance riders in the city.

Sutherland Had An Accident. Ex-Alderman Orion Sutherland started out early yesterday morning to make one of his regular weekly century runs. Chicago was his destination and all went well till he reached Crystal Lake. Here one of the wood rims on his wheel gave way. Mr. Sutherland returned home at noon on the train. Crystal Lake is much nearer Chicago than Janesville, and if the accident to his wheel had not happened he would have made the World's Fair City in time for a late dinner and saw the league ball game, as was his intention.

Club to Give Race Meets. A special meeting of the Arrow Cycling club will soon be called for the purpose of arranging a number of semi-monthly race meets to take place at the fair grounds. It is the intention of the club to promote cycle racing in Janesville the coming season, and from the interest that was shown last summer there is little doubt but what the undertaking will prove a success.

Amos Remington.

Amos Remington died at Plainer, Iowa, May 12, aged eighty years. He settled in Spring Valley, Rock county in 1840 and engaged in farming until 1867 when he moved to Missouri. Two years later he moved to Page County, Iowa, where he resided until his death. Many Rock County people were personally acquainted with him. His aged wife and three children survive him.

Hot Weather Discouraged Many.

The hot weather of yesterday kept the majority of cyclists at home and the result was that those who did not rise at 4:30, contented themselves with short spins. The largest number of local wheelmen were to be found at the up river resorts, and it is estimated that fully a hundred spent the day at Mayflower and Crystal Springs Parks.

Evansville Riders Here.

Evansville riders were well represented in the Bower City yesterday, and among those who wheeled down were Edwin Van Patten, George Bingham, Charles DeLong, Walter Neill, George Powers, Harry Bradley, O. Babcock and David Van Wart.

Rode To Delavan Lake.

Thomas Nolan, Burt Watt, George King and Charles Bliss left at 6:15 yesterday morning and rode to Delavan Lake. Nolan set the pace, and was first to reach the city, making the twenty miles in one hour and twenty-three minutes.

Capt. Buchholz Builds A Wheel.

Capt. Alex. Buchholz has constructed a wooden bicycle that is built from a model of wheels that was used in the seventies. It weighs about fifty pounds, and the front wheel is about five times the size of the rear one.

Chicago Men Go Through.

H. S. Coleman and H. B. Baker, two well known Chicago cyclists, rode into the city yesterday from Rockford, and after taking dinner at the Hotel Myers, they left for Madison.

Some Other Cycling Gossip.

Miss CORA SUTHERLAND has a new Remington.

WILLIAM COYNE now rides a yellow wheel of the Gendron make.

A LOCAL alderman and a well known attorney will try and make the trip to Chicago next Sunday.

ARTHUR ANDERSON, John Gateley, Irwin Golling and Thomas Hogan took a spin yesterday to Yost Park near Beloit.

LEN JOHNSON, Frank Sutherland, and Frank Rousou rode their bicycles to Lake Koshkonong yesterday and spent the day.

HILTON cyclist rode to town yesterday on a fifty two pound wheel, it being a model of 1890 and reported wheeling as being good.

LEROY HOWE IS NOW IN JAIL.

He Will Be Examined at Delavan on June 4—The Motive.

Leroy Howe, after his arrest at Delavan for the alleged murder of his brother, was brought to Delavan and taken before Court Commissioner von Suesmich. The hearing was adjourned till June 4 and Howe was committed to the county jail.

The motive for the deed seems obscure at present though the paper on the dead man's breast was virtually an assigned will, giving his brother all he possessed, which included a life insurance of \$2,000. It is also stated that there is a woman in the case, who accepted the attentions of the murdered man and who was admired by both the brothers. Both the Howes boys were respected where they lived.

THIS DAY IN HISTORY.

1750—Stephen Girard, eccentric millionaire and philanthropist, born near Bordeaux, France; died in Philadelphia 1841. Girard was not liberally educated and began life as a cabin boy. He settled in Philadelphia in 1776. During the epidemic of yellow fever in that city in 1793 he became noted for his attentions to the sick, whom he nursed. Having acquired the building of the defunct United States bank, he founded a private bank. During the war of 1812 he was the sheet anchor of American credit. It is said that Girard never had a friend. He left property valued at \$9,000,000, \$2,000,000 of which went to the founding of the famous Girard college for orphan boys.

BENEATH DEATH'S DARK CLOUD

Mary A. Beswick.

Mary A. Beswick died at her home in the town of Rock, this morning, at 3 o'clock. She was stricken by pneumonia eight weeks ago, but seemed to recover. Three weeks ago, however, she began to fail and physicians were unable to offer aid.

Mrs. Beswick was born in Berkshire, England, November 26, 1814. In 1850 she reached Janesville with her husband, George Tarrant. He died three months later, leaving her with six children. She married Thomas Beswick in 1853, and in the town of Rock homestead, did her full share to cheer and comfort.

Mr. Beswick died in 1872 and since then Mr. and Mrs. James Beswick have made their home with the aged mother. The surviving children are Henry Tarrant, La Prairie; George Tarrant, Durand, Ill.; Mrs. William Howard, La Prairie; Charles Tarrant, Janesville; Mrs. James Beswick, Rock; and William Tarrant, Custer, N. D.

Mrs. Beswick was an earnest and faithful member of the Methodist church, and funeral services will be held in the First Methodist church Wednesday afternoon at 2 o'clock, Rev. R. K. Manaton officiating.

In Honor of Dr. Baines.

The memory of Dr. Oscar O. Baines, who died Tuesday, was honored yesterday morning by special services held in the Lincoln Park Congregational church, Chicago. The faculty of the Bennett Medical college attended services in a body.

At the time of his death Dr. Baines was superintendent of the Sunday school and trustee of the Lincoln Park Congregational church. The altar was decorated with cut flowers and potted plants. Miss Julia Haugen sang "The Sands of Time" and A. W. Ekval rendered "One Sweetly Solemn Thought." Rev. David Beaton preached the sermon, choosing as his text, "Blessed are the dead who die in the Lord."

It was decided to have Dr. Baines' name placed upon the General Howard roll of honor. A large number attended the services.

George W. Smith.

George W. Smith, a former resident of Janesville died at Chicago on Sunday morning, aged fifty years and the remains will be interred at Magnolia Tuesday afternoon. Mr. Smith was employed by Smith & Bostwick for a number of years and at the time of his death was working in the wholesale department of Marshall Field & Co. The immediate cause of his death was Bright's disease and he had been ill for some time. He was a brother of the late W. S. Smith and an uncle of Miss Cora McKenzie.

Alvina Brinkman.

Alvina, the seven weeks old daughter of Mr. and Mrs. William Brinkman, died Saturday evening at the family home in Afton. Funeral services will be held from the Afton church tomorrow afternoon at 2 o'clock. Rev. C. J. Koerner of this city will officiate and the interment to be made at the Afton cemetery.

Mrs. I. A. Hoxie.

Mrs. Sarah Rollins Hoxie, wife of I. A. Hoxie, of the Evansville Review, died at her home in that city Saturday. Mrs. Hoxie was born at St. Albans, Maine, in 1826, and came to Rock county with her husband, whom she married in 1850, in 1852.

NOTICE

Is hereby given that an ordinance of which the following is a copy, will be presented to the mayor and common council of the city of Janesville for action, at a regular meeting of said council to be held at the council chamber in said city on the 15th day of June, 1896, at 8 o'clock in the afternoon of that day.

AN ordinance granting to the Postal Telegraph Cable Company the right to operate a telegraph system in the city of Janesville. The Mayor and Common Council of the city of Janesville do ordain as follows:

Section 1. The Postal Telegraph Cable Company, its successors and assigns, are hereby granted a right of way through, in, and upon the streets, alleys and public grounds of the city of Janesville, for the purpose of erecting, maintaining the posts of wood, iron or other suitable material, and the wires and other apparatus necessary to operate a telegraph system and telegraph exchange in said city.

Section 2. This ordinance is made subject to the conditions of a general ordinance regulating the stringing of wires in the city of Janesville, passed October 10, 1892, and the ordinances amending the same; and to the further condition that said Postal Telegraph Cable Company, its successors and assigns, shall fit the top cross arm of each post or pole erected by them in said city of Janesville, with four pins and proper insulators for the sole use of the fire alarm and police systems of said city.

Section 3. This ordinance shall be in force and take effect from and after its acceptance by said Postal Telegraph Cable Company, and after its passage and publication, which publication shall be for three successive days.

THE MINOR FUNERAL OCCURS TOMORROW

REMAINS TO BE INTERRED AT
OAK HILL.

Many People Insist That They Saw
the Dead Man on the Street at
Ten O'clock on the Same
Morning That the Body Was
Found.

The funeral of J. B. Minor will be
held from the residence at 4 o'clock
tomorrow afternoon. Rev. W. H.
Wotton will officiate and the interment
will be made at Oak Hill ceme-
tery.

Several people insist that Mr. Minor
did not kill himself on Friday night,
as was stated to be the case. Several
men claim to have seen him on Satur-
day morning, and J. A. Sutherland
said Saturday night, that he had
talked to the dead man between 9 and
10 o'clock in the morning. Alderman
S. C. Burnham and W. F. Newberry
say that Mr. Minor passed the Burn-
ham store on the morning the body
was found, and that they were certain
of that fact. Peter Howland said he
saw him at 7 o'clock that morning,
and spoke to him. Others also make
the same claim, but the officers and
relatives of Mr. Minor do not credit
the statements.

Evidence is conflicting.
"There must be some mistake," said
O. C. Ford. "The people who thought
they saw Mr. Minor must have seen
him the day before."

"The body was cold and rigid when
we got there," said Officer Hogan,
"and the blood was as sticky as glue."
Dr. Gibson said that the condition
of the body indicated that death had
occurred at least six hours before he
saw the remains. In the light of
these facts, it would appear that the
people who think they saw the dead
man alive and well two hours before
his death, must be mistaken, yet they
are positive that they are not.

"It is a case of conflicting evi-
dence," said an attorney, "and I
think that a court would be inclined
to take the statement of reliable men
who claim to have seen and talked

Mistaken In One Instance
D. W. Watt was reported by sev-
eral to have talked with Mr. Minor
on the day of his death, but says that
he saw him the night before and that
he did not talk to him on Saturday.

J. V. Norcross thought for a time
he had seen Mr. Minor, on Sat-
urday, but after taking a second
thought decided that he had been
mistaken and that the occurrence
took place the day before. Still,
however, he is not certain.

F. S. Winslow is also positive that
he saw Mr. Minor between 9 and 10
o'clock on Saturday morning near the
postoffice.

Mr. Minor's half brother, Clayton
Minor, of Chicago, came up on the
"accommodation" Saturday night, he
being informed of his brother's sui-
cide after the train started.

Fred Peters Put In Jail Yesterday For
Raising a Disturbance.

Fred Peters was taken to jail yester-
day by Officer Hogan for raising a
disturbance in the first ward. Peters
formerly resided in this city and had
trouble with his family and went to
work on the Earl farm in the
town of Porter. Yesterday
he came to Janesville and went to his
former home on Chatham street. It is
said that he tried to abduct his little
child, the mother at the time being at
a neighbor's. He was discovered how-
ever, and was landed in jail.

THREE MADE SICK BY HEAVEN'S BOLT

LIGHTNING STRUCK GEORGE
PETERS' HOUSE

Mrs. Peters and Son Made Ill By the
Gaseous Odor, While A. A. Ben-
Was Stunned But All Recovered
Soon Afterward—Telephone Lines
Suffer.

Perhaps you shuddered when that
terrible clap of thunder, and its part-
ner, the blinding flash of lightning
leaped from space into the town last
night.

Of course you did—and there were
others.

Including:
BENNETT, A. A. stunned by a bolt, but soon
regained consciousness.
GRAVES, Mrs. GEORGE, made sick by vapors
that came with a bolt.
GRAVES, GEORGE JR., made ill by noxious
gases, etc.

None of them, however, were seri-
ously hurt. Mr. and Mrs. Graves live
on Mineral Point avenue, and Mr.
Bennett resides with them. The bolt
of lightning struck the chimney at
12:10 o'clock this morning. Bennett
was sleeping near the chimney, and
was stiffened out senseless. Mrs.
Graves and her son George were in
another room, and both felt the
shocks. They were much frightened,
and afterwards became quite ill, be-
cause of the sulphurous odor that
filled the room. Bricks from the
chimney were thrown fifty feet by the
bolt, and a cloud of soot was blown
into the faces of the sleepers.

Telephones Burned Out

But the bolt didn't confine itself to
damaging the Peters' home.

Among those who said "whew!"
was Manager Willis, of the telephone
exchange. He knew that it
meant tangled wires and trouble, so
when he came down this morning, he
wasn't surprised to find things in bad
shape. The lightning raised havoc
with the metal strands, just as he had
figured, and the result was that the
wires were down in all parts of the
county. During the day it was im-
possible to communicate with many of
the outside towns, and in the city
numerous boxes were burnt out. The
large cable box, near the exchange
office, was scorched, and toll lines to
all the surrounding towns suffered.
A gang of men were busy today re-
pairing the damage, the wind having
joined with the lightning in the work
of destruction.

St. Paul Trains Late

All the trains on the Mineral Point
division of the St. Paul road were
half an hour late this morning be-
cause of the storm, which caused the
worst washout that the road has had
in five years. Nearly a mile of track
on the Shullsburg branch was swept
away, and the east bound trains were
compelled to wait in consequence. A
special train left this city this morn-
ing loaded with section men. They
had orders to get to the wrecked sec-
tion as soon as possible, and it is ex-
pected that before long the track that
was washed away will be replaced.

South of this city a perfect gale of
wind accompanied the storm, and the
railroad men say that at Rockford,
small buildings were blown down and
trees uprooted.

THE TEMPLIN CASE TO BE TRIED AGAIN

VERDICT IS SET ASIDE BY
JUDGE BENNETT.

Court Coincides With the Plaintiff's
Attorneys, John Cunningham and
Sutherland & Nolan on
Point of Law, Regarding Arrests
Made by Private Persons.

The case of F. Templin, an infant
by M. Templin, his next friend,
against the Chicago & Northwestern
Railway company, will be tried again,
Judge Bennett today setting aside
the verdict, and ordering a new trial.

The case it will be remembered, was
an action brought to recover dam-
ages for the arrest of the Templin
boy. Detective Evans, of the com-
pany's force of special agents arrested
him for an alleged attempt at train
wrecking, at the time that ties were
found upon the company's track near
the "Black Bridge" some time ago.

Young Templin was locked up in jail
but as Detective Evans made no com-
plaint against him, he was released.

Suit was then brought, and tried at
this term of court, but after a six
hour session, the jury returned a ver-
dict in favor of the railway company,
John Cunningham, with Sutherland
& Nolan associated with him, appeared
for the plaintiff, while Gen. Winkler,
of the firm of Winkler, Smith, Flan-
ders, Bottum & Vilas, of Milwaukee
defended.

Detective Did Not So Testify
When the court charged the jury,
the plaintiff's attorneys claimed, he
did not specify clearly one point in the
Wisconsin law relating to the case.

His charge was to the effect that if
Detective Evans had probable cause to
believe the boy guilty, that he was
justified in arresting him. Tem-
plin's attorneys stated, in making their
motion, that the law provided, and
the charge must have therefore in-
cluded, the clause, that in addition to
having "probable cause to believe,"

Detective Evans must have actually be-
lieved, that the lad was guilty. As he
had not testified to such belief and
had further failed to evince it by fail-
ure to make a complaint against the
lad, the court granted the motion; set
aside the verdict, and ordered a new
trial.

A Case In Point
In support of their contention the
defendant's attorneys quoted a case
from the 70th Wisconsin, 131, Plum-
mer vs. Johnson, in which the court
held "that a private person is not jus-
tified in making an arrest
without a warrant, unless
he has good reason to believe,
and does believe, that the person ar-
rested is guilty of the crime."

As a detective is but a private per-
son, and not an officer of the law, this
authority fully covered the case. The
laws of Wisconsin and Michigan are
identical on this point, while the laws
of the other states do not include the
"actual belief" clause.

The case will come up for re-trial at
the November term of court.

DAINTY ACCESSORIES.

Gorgeous Millinery—Flowers of Every Color and Plenty of Them.

The fashionable hat is overloaded with flowers. In some cases there are a dozen of different colors, with their foliage, on the same hat. The effect is not entirely satisfactory. After all this luxuriance of color and quantity there will of course be confusion, and no doubt the severely simple will reign again before long.

Silk petticoats are very much trimmed with lace, bows and ruffles, but some of the simpler ones are the most effective. These ornamented with ruffles will look as well as the more elaborate ones, and are much better than the former, as they are crushed and crumpled by the dress skirt.

The real summer time is a very little and is always adorned with great white and bows and with fantastic collars. They are seen in all colors, even in sky blue, and are trimmed lengthwise with embroidery or bead ornamentation, or with lace and other applications. Then there are others of broche silk, with a ruche all around. A great deal of plaited black tulle and mouline is sold, used also on work fabric of black and blue, and colored tulle. All the dresses are made of white, usually of very fine white tulle. Scarf,

STREET TOLLS. Maize, orange, lemon and grape affects plain, open, smooth road and is a changeable thing as this is employed.

Low cut vests, having a corset effect, are much worn and afford fine opportunities for the display of ingenious and becoming gimpes.

The illustration shows a street costume of lace tulle "flamme de punch." It is of princess form, the bodice crossing diagonally in front and fastening at the side of the waist. The collar and revers are of embroidered silk, edged with a fluting of black silk gauze, and a band of the same material is worn over the right side of the skirt. Boys of black satin are placed at the waist and shoulders. The plastron is of lace. The sleeves have bands of embroidery near the wrist and terminate in frills of black gauze. The hat is of black straw, is trimmed with a ribbon matching the tulle, striped with white. Black ostrich plumes and white lace complete the adornment.

JUDIC CHOLLET.

BODICES AND BASQUES.

Vests of Various Materials Much Worn. Ripples Appear Again.

The basque bodices of the season are variously designed. Some of them are closed, some are open over a vest or plastron, and others more or less full. All the basques are very short, falling not below the hips. The bodice may be made of wool goods like the skirt, of ottoman or broche silk, of plain or mixed cloth or of velvet.

Almost all corsets are very much trimmed in front. The adornment may consist of large, flat revers or of revers ruffled, plaited or slashed in odd fashions. The vests are plain when the material of which they are made is broche or embroidered, or gathered and held at the waist by a belt when it is light and thin like muslin, tulle or mouseline de soie.

In bodices which are entirely tight fitting the vest stops at the first or second dart. In those having loose jacket fronts the vest is continued to the under arm seam, thus holding the bodice in shape.

Basques are all more or less ruffled, according to the form of the wearer. For persons with wide hips it is necessary to

decrease the godets, while women who are too narrow and slender look better with a great deal of fullness at the sides and back of the corse.

In order for ripple or godet basques to keep their form they must be lined with fine, flexible canvas. This must be fastened against each seam and also to the lining of the bodice at the waist or just below it. The canvas ought to be fitted carefully to the outside, being made for a narrow hem or fold at the lower edge which will give the basque solidity. A lining of thin silk must be placed outside the canvas.

The costume shown in the illustration is of latania green liberty silk. The skirt is trimmed around the foot with a band of white, embroidered with gold and silver. The bodice has short basques, breasted and a collar of the same sort of guipure, and guipure edges. The large epaulettes of russian green velvet. The sleeves of silk have cuffs of guipure at the wrists. The chemise and high collar are of white gauze.

How much business can a man do whose system is in a state of disorder? Headache is only a symptom. It is not a disease. The pain in the head is the sign of rebellion. There have been mistakes in diet and other abuses.

Dr. Pierce's Pleasant Pellets are a gentle, effective renovator and invigorator of stomach, liver and bowels. They assist nature without hurting, and tend to tear the body piecemeal. They are not purgatives, but laxatives. One is a laxative.

A book of 100 pages, profusely illustrated, written by Dr. V. Pierce, called 'The People's Guide to Health,' is sent free to all who mail only. World's Dispensary Medical Association, No. 653 Main Street, Buffalo, N. Y.

Your Stomach Distresses You

After a hearty meal, and the result is a chronic case of Indigestion, Sour Stomach, Heartburn, Dyspepsia, or a bilious attack.

RIPANS TABULES

Promote Digestion, Regulate the Stomach, Liver and Bowels, Purify the Blood, and are a Positive Cure for Indigestion, Sour Stomach, Biliousness, and all other diseases arising from a disordered condition of the Liver and Stomach. They act gently yet promptly, and perfectly follow the course of nature.

Price, 50 Cents a box. At druggists, or by mail, from J. W. WALKER, 100 So. 2d St., New York.

What people want in an ad, is exact,

definite information. It ought to be given to them in a simple, direct, and unambiguous way, and as strongly as possible, for the "other fellow" is after these same people.

After the Fire Is Over!

Prompt payment of the insurance is desired by the owner of the property destroyed. Solid, substantial, well-backed companies, are not the ones that resort to excuses to delay payment.

Insurance in Solid Company Costs no More

than in a new company with insufficient assets. The worth is incomparably greater.

Just Opened

300 NEW PARASOLS.

White, Black, Changeable, Printed Warps, Taffett, and

All the Latest Style and Newest Ideas

You will be pleased to look over this fine collection of new and beautiful parasols. There is one new fad that is running largely in the east; that is **22 in.** plain Parasols in black and colors. They are very nobby. We show a good assortment of them. There are in this lot many novelties, only one of a kind, those peculiar marked styles that you don't want to have too many of one kind in the city. You know what we mean. You can get a pretty style and no one can have one like it. That is an advantage in high art Parasols. It would be a good idea to come and select one while there is a big assortment. You know how it goes in this line of stuff. Those who buy early get the choice things and those who wait get what the other people don't want.

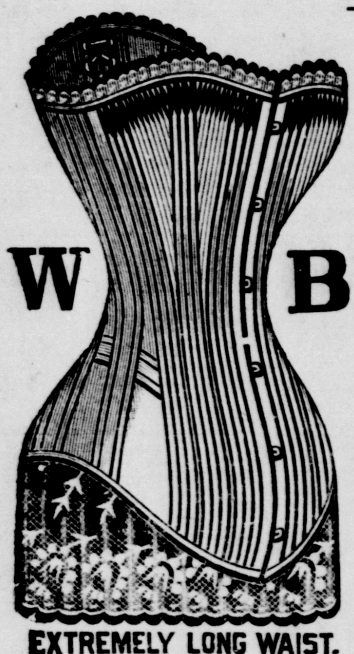

Come and See This Great Line Of Parasols.

EARLY SUMMER MUST HAVE'S

It's absolutely necessary to have one, and in many cases, all, of the things we talk on in this ad.

For instance, hot weather makes the keeping of the food and eatables generally untainted. A rather hard task unless your refrigerator is in good shape. You should have one large enough to keep all the table stuff in.

THE ILLINOIS AUTOMATIC combined Refrigerator and Water Cooler is the best on the market. We handle other kinds as well and think you should see them before you buy.

Why not keep the lawn nicely cut and have it look as well as your neighbors? We can give you a good

LAWN MOWER FOR \$2.75 and have better ones for a little more money. Our stock is large.

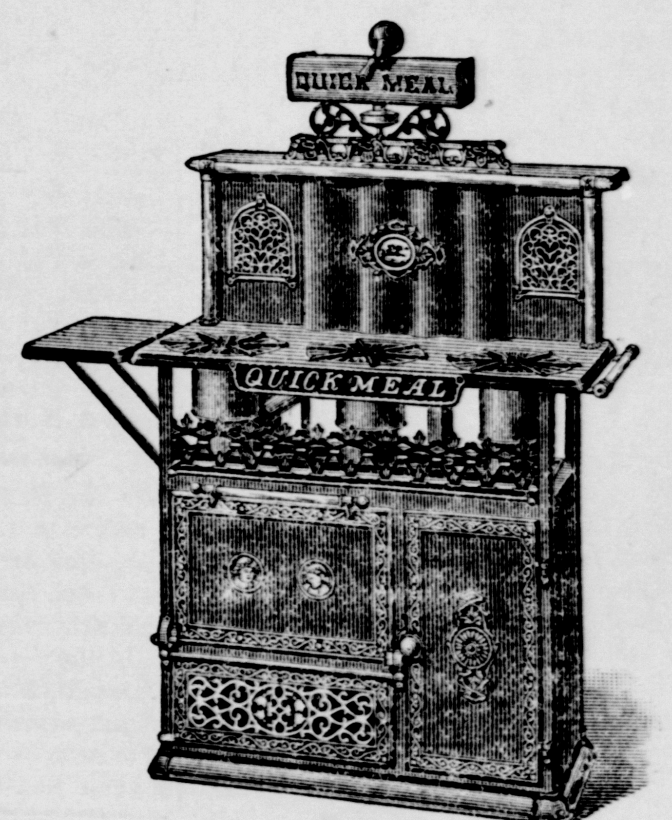

SCREEN DOORS & WINDOWS

A great stock of them. The kind you don't have to swear about while putting them in or taking them out. You can't kick about the price they are so cheap.

CLEVELAND SEAMLESS HOSE

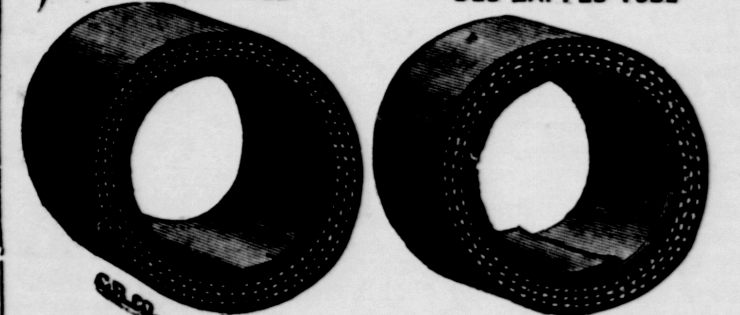

No seam to leak or rot. It lasts twice as long as other Hose and is cheaper in the long run.

You can't explode.....
QUICKMEAL GASOLINE STOVE
It's an impossibility. They cost but one cent an hour per burner to run and are the only stove for summer use. Are you acquainted with its good qualities?
